EXPERIENCE

Independent Technical Sabbatical

August 2025 – Present

- Developing computational and technical proficiencies in artificial intelligence, Python programming, semantics, and automation systems.
- Researching AI implementation, workflow optimization, and operational integration across organizational environments.

Product Lead | CD Nutra | Charleston, SC

October 2024 – August 2025

- Led planning, manufacturing, auditing, and quality control operations for nutraceutical food products.
- Supervised production crews ranging from individual assistants to teams of 5 personnel.
- Produced approximately 50,000–60,000 units weekly of regulated confection products during operational scale-up.
- Supported transition planning toward automated manufacturing systems.
- Maintained precision measurement, dosage accuracy, auditing, and compliance-sensitive production processes.
- Contributed to GMP-compliant operational expansion and automation rollout planning.

Project Manager | Bruno Clay Management | Vienna, VA

September 2022 – 2024

- Oversaw residential and commercial renovation projects in urban environments.
- Conducted inspections and remediation surveys for apartment communities under state-mandated remediation processes.
- Developed punch-list remediation plans for portfolios exceeding 500 units.
- Supervised crews of up to 10 personnel across multiple active job sites.
- Coordinated between residents, contractors, property management companies, and ownership groups during disputes and remediation matters.
- Documented deficiencies, damages, corrective actions, and compliance issues for legal and operational review.
- Compiled photographic and written evidentiary documentation used in litigation support and dispute resolution.
- Participated in depositions and court-related proceedings involving operational testimony and documentation review.
- Maintained records and audit trails for compliance verification and legal defensibility.

Store Lead | LensCrafters | Mount Pleasant, SC

July 2020 – June 2022

- Managed retail sales operations and in-house optical lab production, including lens fitting and quality oversight.
- Advanced from junior management into store leadership during organizational restructuring.
- Ranked among top-performing stores across ~50 southeastern locations over 9 months.
- Generated annualized sales exceeding \$1M in gross revenue.
- Trained and developed associates in customer service, technical consultation, and corporate policy.

Financial Aid Representative | Temple University Student Financial Services | Philadelphia, PA

May 2017 – January 2019

- Assisted students and parents with loans, grants, scholarships, and disbursements.
- Maintained financial documentation and compliance procedures.
- Advised on institutional financial aid policies and administrative processes.
