EXPERIENCE

August 2025 – Present

Independent Technical Sabbatical

- Developing computational and technical proficiencies in artificial intelligence, Python programming, semantics, and automation systems.
 - Researching AI implementation, workflow optimization, and operational integration across organizational environments.
-

October 2024 – August 2025

Product Lead |

CD Nutra

| Charleston, SC

- Led planning, manufacturing, auditing, and quality control operations for food products containing nutraceutical additives.
- Supervised production crews ranging from individual assistants to teams of 5 personnel.
- Hand-manufactured approximately 50,000–60,000 weekly of regulated confection products while company operations scaled toward automation.
- Assisted with operational planning and transition into automated manufacturing systems.
- Maintained responsibility for precision measurement, dosage accuracy, insertion, auditing, and compliance-sensitive production processes.
- Contributed to planning for GMP-compliant operational expansion and automated rollout.

September 2022 – 2024

Project Manager |

Bruno Clay Management

| Vienna, VA

- Oversaw residential and commercial renovation projects in urban environments.
- Conducted inspections and remediation surveys for apartment communities undergoing state-mandated remediation processes.
- Developed punch-list remediation plans for residential portfolios exceeding 500 units.
- Supervised crews of up to 10 personnel across multiple active job sites.
- Coordinated between residents, contractors, property-management companies, and ownership groups during disputes and remediation matters.
- Documented remediation deficiencies, damages, corrective actions, and compliance issues for legal review and operational accountability.
- Compiled photographic, written, and evidentiary documentation used in litigation support, remediation review, and dispute resolution proceedings.
- Participated in depositions and court-related proceedings involving operational testimony and documentation review.
- Maintained organized records and audit trails for compliance verification and legal defensibility.

July 2020 – June 2022

Store Lead |

LensCrafters

| Mount Pleasant, SC

- Managed retail sales operations and in-house optical lab production, including lens fitting, specifications, and quality oversight.
 - Served in junior management before transitioning into store leadership responsibilities during unforeseen leadership loss and organizational restructuring.
 - Ranked among top-performing store sales across approximately 50 southeastern regional stores over a sustained 9-month period.
 - Generated annualized sales metrics exceeding \$1 million in gross sales performance.
 - Trained and developed sales associates on customer service, operational standards, technical consultation, and corporate policy.
-

May 2017 – January 2019

Financial Aid Representative |

Temple University

Student Financial Services | Philadelphia, PA

- Assisted students and parents with educational loans, grants, scholarships, disbursements, and financial-record processes.
 - Maintained financial documentation, approvals, compliance procedures, and records management responsibilities.
 - Advised students and families on institutional financial-aid policies, legalities, and administrative processes.
-

EDUCATION

Temple University

Bachelor of Arts in Adult & Organizational Development | GPA: 3.6

Minor in Psychology | June 2019
