

Filius Parvi Johannis

Graced is John a son of the sea which was then and now gone and now still earth to be.

Deceitful is he who wrestles with god in the dark. Alone on a ladder. Alone in the dark. He is with God and still knows no start. A life never known is to now start.

While Christ is the Earth and the Sea is a Peace. Grace knows all and Grace knows thee.

Grace is not the ladders rungs. A battle started was always begun. Though the ladder knows of no peace to be- a peace begun while peace is at sea.

Peace can't know how one does fear. To know Peace is to know peace and fear. Grace is Grace always- and always it's thee. To be of Earth above and earth and sea- grace is then always, always in we.

For Filius filii grace is to be and grace always was and Grace now can be. Grace is now filius to you and of thee.

Honor and Fratrums brought from the sea. without little is lost for little knows thee.

A heal to a halt and halt to thee. Honored Esau's, and Fratrums decreed- now the face of God is seen.

Now a heel to an arm and an arm to me. Omega above or Omega below. Through desert a herald, the same kind is the arrow. In Nubia fratrum indeed. Israel born on Jacob's forsworn- Unfounded it was now to be. Twelve will walk the land and times hard had by a people lost who will now be received.

First derivative:

Grace'd is John a son of sea and earth is he who wrestles with God in the dark. While Christ is the Earth and the Sea is Peace. Grace is not the ladder. The ladder knows no Peace. To know Peace is to know Grace. And to know Grace is to be Peace. To be of Earth and Sea then Graced will be Jacob. So and a heal to a hand and gaze of omega is seen.
